

AWS RECYCLING YARD – ENVIRONMENTAL POLICY

1. Statement of Intent

AWS Recycling Yard is committed to minimising our environmental impact while ensuring compliance with all relevant environmental laws and regulations. We aim to:

- Reduce waste, emissions and pollution arising from our operations.
- Promote the sustainable use of resources and materials.
- Continuously improve our environmental performance through regular monitoring and reviews.
- Provide staff training and resources to support environmental practices.

This policy will be reviewed annually or after significant changes.

Signed: 

Name: MR J WEIR

Position: DIRECTOR

Date: 10.03.2025

2. Responsibilities for Environmental Protection

Management Responsibilities:

- Ensure compliance with all environmental laws and regulations.
- Provide necessary resources for implementing environmental practices.
- Set environmental objectives and ensure they are achieved.
- Monitor and review environmental performance regularly.

Employee Responsibilities:

- Follow environmental procedures and policies.
- Minimise waste and energy consumption in daily tasks.
- Report any environmental concerns, incidents, or potential improvements.
- Participate in environmental training and initiatives.

Contractors & Visitors:

- Must follow site-specific environmental guidelines and report any issues.
-

3. Arrangements for Environmental Protection

- **Waste Management:** Ensure waste is segregated, recycled and disposed of responsibly.
- **Energy Use:** Monitor energy consumption and take steps to improve efficiency.
- **Water Conservation:** Implement water-saving measures and reduce waste water.
- **Pollution Control:** Use appropriate measures to prevent pollution to air, water and land.
- **Transportation:** Encourage fuel-efficient practices and reduce vehicle emissions on site.
- **Environmental Training:** Provide ongoing training and raise awareness about sustainable practices.
